

PROTECT-O-SCREEN HD®

NEW!

Steiner **PROTECT-O-SCREENS**® the industry workhorse for welding screens ...is now working even harder with the addition of **PROTECT-O-SCREEN HD**® Heavy-Duty screens ...for superior performance in the toughest environments.

DURABILITY

- Heavy-duty 1" square tube and 1-1/8" square tube corners and legs provide extra strength and rigidity at high stress points. Rust and abrasion-resistant enamel finish.
- Quick-snap construction allows quick, easy and flexible assembly without tools.
- Square tube frame is rigid and designed to eliminate the slipping and twisting that occurs with round tube frames.
- Supplied with 24" long, 1-1/8" square tube platform legs to ensure stability. Optional caster wheels allow quick and safe mobility.

FLEXIBILITY

- **PROTECT-O-SCREENS** offer more flexibility than any other safety screen on the market. Patented framing system provides the widest range of multi-panel configurations. In just minutes, the unique modular design allows the addition, removal, replacing or rearranging of panels to adapt to new requirements. Use individually or join together to form multi-panel enclosures using 2, 3 or 4-way **Connect-O-Screens**™.
- Any screen can be used horizontally or vertically. Legs can be turned 90 degrees to prevent interference. Single caster leg is also available for a multi-panel configuration.

Connect-O-Screen™

Create any multi-panel configuration using 2, 3, or 4-way **Connect-O-Screen**™ panel connectors

Heavy Duty 1" square tube

For strength and rigidity to prevent the slipping and twisting that occurs with round tube

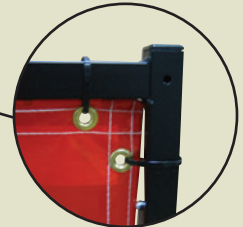

Powder-coated enamel finish
is rust and abrasion resistant.

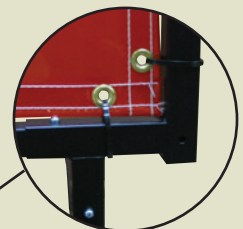

Quick-snap slip-fit
Corrosion resistant zinc-plated snap pins allows quick, easy assembly without tools

1-1/8" square tube corners
provide extra strength and rigidity at high stress points

Heavy duty legs
24" long, 1-1/8" square tube. Can rotate 90 degrees to prevent interference

PRODUCT INFORMATION AND SELECTION GUIDE

Olive Drab Cotton Duck – 12 oz. flame retardant cotton Duck is opaque and blocks all flash and harmful rays, resists flame, water and mildew. General purpose, economical protection against light sparks and spatter.

Tinted Transparent Vinyl – 14 mil. flame retardant vinyl provides protection from harmful UV rays and sparks for the casual viewer or passerby. Various colors are available.

Vinyl Laminate – This material is opaque and blocks all flash and harmful rays. Strong and lightweight, flame, water and mildew resistant. Good resistance against punctures, tears, and abrasion. See Steiner catalog for details.

Warning: Transparent vinyl welding curtains are not intended as a substitute for normal eye protection for close or long-term viewing. The user must wear protective eyewear suitable for the application. Clear transparent vinyl is not for use in welding applications.

SCREEN ACCESSORIES

Steiner's unique **Connect-O-Screen™**, connection system joins single, modular **PROTECT-O-SCREEN®** using either two, three, or four panel connectors to form multi-sided enclosures, in-line dividers, or safely enclose on four sides. **Connect-O-Screen™** is easily inserted into the hollow frame, top and bottom corners of adjoining frames.

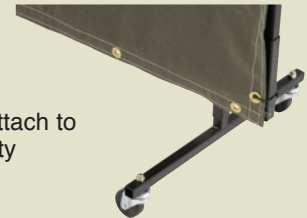

54202-HD 2-PANEL Connect-O-Screen™

- Connects 2 Screen panels together to form a 2, 3, or 4-sided enclosure

54600-HD CASTER WHEEL

- Heavy-Duty casters attach to platform leg for mobility

54203-HD 3-PANEL Connect-O-Screen™

- Connects 3 Screen panels together to form a common hub to divide welding areas

54606-HD LOCKING CASTER WHEEL

- Heavy-Duty casters attach to platform leg to lock wheel

54204-HD 4-PANEL Connect-O-Screen™

- Connects 4 Screen panels together to form a common hub and create enclosures

54601-HD SINGLE CASTER LEG (OPTIONAL)

- For multi-panel configurations
