

VELVET SHIELD®

DEVELOPED BY NITSER TECHNOLOGIES

The softest and toughest welding protection ever – up to 1800°F

NEW
Also available
in 24 oz. HD

Welding Blanket

Lightweight, soft and flexible Welding Blanket material, providing incredible ease of use, while withstanding high heat

- Velvet Shield® welding blankets are composed of a carbonized fiber fabric developed from NASA technologies, which are flame and heat resistant.
- Versatile blankets are soft and lightweight, providing incredible ease-of-use
- Provides protection from sparks and spatter during welding, brazing or soldering
- Easy to clean; just shake, vacuum or blow metal particles out
- Available in 16 ounce and **NEW** Heavy Duty 24 ounce in several stock Blanket sizes, as well as bulk roll goods, or 18"x18" Pad (16oz.)

Operating Temperature 1800° F
